**PETITIONING THE COURT**

To modify the conditions of supervision as follows:

- 22 You shall complete a mental health evaluation and follow any treatment recommendations of the evaluating professional which do not require forced or psychotropic medication and/or inpatient confinement absent further order of the Court. You shall allow reciprocal release of information between the supervising officer and treatment provider. You shall contribute to the cost of treatment according to your ability to pay.
- 23 You shall take medications for the treatment of anxiety and depression as prescribed by the licensed mental health treatment provider.

**CAUSE**

Lori Cargill came into the United States Probation Office on June 9, 2015, and admitted she used methamphetamine on June 7, 2015. She did provide a urinalysis test this date which was negative. She indicated she has been having difficulty with her ex mother-in-law who is currently caring for her son, which has caused her a significant amount of stress. She has previously taken medication for depression and anxiety. It appears that Ms. Cargill would benefit the most from participating in mental health counseling.
